

What makes a sterling image Experience ?

Fotographic Artist L. andrew sterling has a passion of conceptualizing very powerful and unique imagery & has enjoyed a rise to a position as one of the top fotographers in the region. Whether he is creating a family portrait session, wedding or a fashion shoot he gives 110% and guarantees the client of having an award winning piece. Andrew's distinctively powerful style of imagery has captured the hearts of many clients young & old alike. Hoping each piece of art being an original with symbols and meaning to each client he is honored to capture. First of all Andrew will ask the client three favors 1. Not to come with preconceived ideas. 2. Come to the session rested & with plenty of time to spend in the fotographic creation session. 3. Enter the session with an open mind & most of all trust. Andrew is energized and his creativity begins to flow from the synergy the client brings to the session. The most interesting part of the journey is finding out what he conceptualizes and unveiled for your personnel historical documentation.
